

AMENDMENT TO THE CLAIMS

Amend claims as shown in the following claim listing:

Claim 1. (Currently amended) A smoking device comprising:

a combustion chamber comprising a bowl for containing combustible material to be burned;

a mouth piece pipe communicating with the combustion chamber; and

a piezoelectric torch flame ignition device extending into the combustion chamber above the mouth piece pipe and below the bowl for generating a torch flame capable of extending into the combustion chamber in a direction generally perpendicular to the mouth piece pipe and across the bottom of the combustion chamber to ignite combustible material within the combustion chamber.

2. (Original) The smoking device of claim 1 wherein the combustion chamber, bowl, and mouth piece pipe are formed of metal.

3. (Original) The smoking device of claim 2 wherein the metal is aluminum.

4. (Original) The smoking device of claim 2 wherein the metal is stainless steel.

5. (Original) The smoking device of claim 1 wherein the piezoelectric ignition device further includes a fuel tank for gaseous fuel.

6. (Original) The smoking device of claim 1 wherein the bowl and mouth piece are removable to facilitate cleaning of the device.

7. (Original) The smoking device of claim 1 further including removable covers covering the fuel tank .

CLAIMS AS AMENDED

1. A smoking device comprising:

a combustion chamber comprising a bowl for containing combustible material to be burned;

a mouth piece pipe communicating with the combustion chamber; and

a piezoelectric torch flame ignition device extending into the combustion chamber above the mouth piece pipe and below the bowl for generating a torch flame capable of extending into the combustion chamber in a direction generally perpendicular to the mouth piece pipe and across the bottom of the combustion chamber to ignite combustible material within the combustion chamber.

2. The smoking device of claim 1 wherein the combustion chamber, bowl, and mouth piece pipe are formed of metal.

3. The smoking device of claim 2 wherein the metal is aluminum.

4. The smoking device of claim 2 wherein the metal is stainless steel.

5. The smoking device of claim 1 wherein the piezoelectric ignition device further includes a fuel tank for gaseous fuel.

6. The smoking device of claim 1 wherein the bowl and mouth piece are removable to facilitate cleaning of the device.

7. The smoking device of claim 1 further including removable covers covering the fuel tank
